STATEMENT OF CENSORSHIP

AACT policy permits the widest possible range of dramatic material to be performed in a festival of the American Association of Community Theatre and does not permit censorship of any company's production.

PRODUCTION TIMING

The total length of the performance may not exceed sixty minutes (including introductions, scene changes, and curtain calls). Any element that brings the audience into the world of the play (music, sound, movement, lights, etc.) will begin the sixty-minute period. The complete cessation of such will complete the timing period. Each production is allowed a maximum ten minute set-up time and ten minute strike time from an on-deck area. If a set-up or strike is intended to set mood, establish character, or otherwise begin the experience of the play, it will be considered part of the sixty minute performance time.

GUIDELINES FOR ADJUDICATORS

Plays are to be adjudicated based on the overall production, with acting and directing as the major elements. All types of productions (comedy, drama, original works, musicals, revues, avant-garde, "controversial," etc.) are acceptable entries to the festival and must be considered on a similar basis, with the best production being the one most fully realizing the intent of the material and the concept for the show. Design and technical competence is to be given consideration as to its effectiveness as an integral part of the total production experience.

Any and all statements made by adjudicators are strictly their own opinion and do not necessarily represent the opinions of AACT or any other organization with which they may be associated.

CRITERIA FOR CONSIDERATION

Is the acting believable and technically skillful with effective timing? Are the characters well interpreted? Does the company display ensemble work? Is the material appropriate for the company? Is the concept appropriate for the material and realized by the company? Has the structure of the production been controlled? Are the movements and stage pictures effective? Is the production well paced? Do the technical elements support the overall production? How effective was the total impact?

The preceding information is excerpted from the *AACTFest 2023 Handbook*. The complete Handbook must prevail in case of disagreement or confusion.

Suggested AACTFest Recognition Awards **C5**

Below is a suggested list of awards for consideration. There is neither a minimum nor a maximum number to be given for any award. Other awards may be given if the adjudicators agree that there is some other achievement deserving special recognition. It is best to avoid giving awards that state or imply "best ______." All special recognition awards are optional and no award needs to be given in a category where the adjudicators believe none is deserved.

* AACT recommends shows for international festivals. Generally speaking, most international festivals want a 40-60 minute show that is movement or music oriented and/or tells a universally familiar story that can be understood and enjoyed by a multi-national audience that may not speak English. A production does not have to advance to be considered, but quality should be a factor. If you believe a production in this festival is suitable for an international festival please check the appropriate column.
